

4400 T-Wedge

For a 4-6 inch K style gutter.

Information

4400 T-Wedge can support 4, 5, and 6 inch gutters in any slanted or sloped application including crown molding, 1x2 trim board, etc. Uniquely designed for simple installation and is totally adjustable.

#4400

- Gives 100% support against rain, snow, and ice.

- Works with virtually all gutters.
- Keeps the gutters square and plum for years.
- For larger or more heavy duty applications use the 4500 Jumbo T-Wedge.

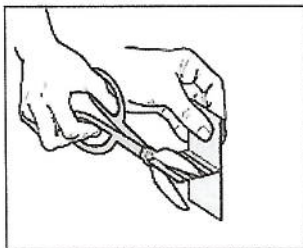

.050 Wall Thickness
